Item 4 – Advisory Services

A. Firm Information

Cutter Financial Group LLC (“Cutter Financial” or the “Advisor”) is a registered investment advisor with the U.S. Securities and Exchange Commission (“SEC”), which is organized as a limited liability company (“LLC”) under the laws of the Commonwealth of Massachusetts. Cutter Financial was founded in April 2006 and is owned and operated by Jeffrey Cutter (President and Chief Compliance Officer) and Jill Cutter (Operations Manager). This Disclosure Brochure provides information regarding the qualifications, business practices, and the advisory services provided by Cutter Financial.

B. Advisory Services Offered

Cutter Financial offers investment advisory services to individuals, high net worth individuals and charitable organizations (each referred to as a “Client”).

The Advisor serves as a fiduciary to Clients, as defined under the applicable laws and regulations. As a fiduciary, the Advisor upholds a duty of loyalty, fairness and good faith towards each Client and seeks to mitigate potential conflicts of interest. Our fiduciary commitment is further described in our Code of Ethics. For more information regarding our Code of Ethics, please see Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading.

Investment Management Services

Cutter Financial provides investment advisory solutions for its Clients through portfolio strategies where the Advisor exercises discretionary authority to select model portfolios to place Client assets. Cutter Financial selects a model portfolio for its Clients only after performing internal due diligence to assess the Client’s risk tolerance and financial situation. The Advisor may effectuate the securities transactions in the Client’s accounts based on information provided by one or more unaffiliated investment managers. Cutter Financial works closely with each Client to identify their investment goals and objectives as well as risk tolerance and financial situation in order to assign Clients to the model portfolios. Cutter Financial constructs model portfolios consisting of diversified mutual funds and/or exchange-traded funds (“ETFs”). For certain Clients, the Advisor may utilize leveraged ETFs. The Advisor may also utilize individual stocks, bonds or options contracts to meet the needs of its Clients. The Advisor may retain certain legacy investments based on portfolio fit and/or tax considerations.

Cutter Financial’s investment strategies are primarily long-term focused, but the Advisor may buy, sell or re-allocate positions that have been held less than one year to meet the objectives of the Client or due to market conditions. Cutter Financial constructs, implements and monitors the portfolio to ensure it meets the goals, objectives, circumstances, and risk tolerance of its Clients. Each Client will have the opportunity to place reasonable restrictions on the types of investments to be held in their respective portfolio, subject to acceptance by the Advisor.

Cutter Financial evaluates and selects investments for inclusion in Client portfolios only after applying its internal due diligence process. Cutter Financial may recommend, on occasion, redistributing investment allocations to diversify the portfolio. Cutter Financial may recommend specific positions to increase sector or asset class weightings. The Advisor may recommend employing cash positions as a possible hedge against market movement. Cutter Financial may recommend selling positions for reasons that include, but are not limited to, harvesting capital gains or losses, business or sector risk exposure to a specific security or class of securities, overvaluation or overweighting of the position[s] in the portfolio, change in risk tolerance of the Client, generating cash to meet Client needs, or any risk deemed unacceptable for the Client’s risk tolerance.

At no time will Cutter Financial accept or maintain custody of a Client’s funds or securities, except for the limited authority as outlined in Item 15 – Custody. All Client assets will be managed within their designated account[s] at the Custodian, pursuant to the Client investment advisory agreement, please see Item 12 – Brokerage Practices.

Financial Planning and Consulting Services

Cutter Financial will typically provide a variety of financial planning and consulting services to Clients, pursuant to a written financial planning agreement. Services are offered in several areas of a Client's financial situation, depending on their goals, objectives and financial situation. Generally, such financial planning services involve preparing a formal financial plan or rendering a specific financial consultation based on the Client's financial goals and objectives. This planning or consulting may encompass one or more areas of need, including but not limited to, investment planning, retirement planning, personal savings, education savings, insurance needs, and other areas of a Client's financial situation.

A financial plan developed for or financial consultation rendered to the Client will usually include general recommendations for a course of activity or specific actions to be taken by the Client. For example, recommendations may be made that the Client start or revise their investment programs, commence or alter retirement savings, establish education savings and/or charitable giving programs.

Cutter Financial may also refer Clients to an accountant, attorney or other specialists, as appropriate for their unique situation. Cutter is not compensated for making such referrals. For certain financial planning engagements, the Advisor will provide a written summary of Client's financial situation, observations, and recommendations. For consulting or ad-hoc engagements, the Advisor may not provide a written summary. Plans or consultations are typically completed within six months of contract date, assuming all information and documents requested are provided promptly.

Financial planning and consulting recommendations may pose a conflict between the interests of the Advisor and the interests of the Client. For example, a recommendation to engage the Advisor for investment management services or to increase the level of investment assets with the Advisor would pose a conflict, as it would increase the advisory fees paid to the Advisor. Clients are not obligated to implement any recommendations made by the Advisor or maintain an ongoing relationship with the Advisor. If the Client elects to act on any of the recommendations made by the Advisor, the Client is under no obligation to implement the transaction through the Advisor.

C. Client Account Management

Prior to engaging Cutter Financial to provide investment advisory services, each Client is required to enter into one or more agreements with the Advisor that define the terms, conditions, authority and responsibilities of the Advisor and the Client. These services may include:

- Establishing an Investment Strategy – Cutter Financial, in connection with the Client, will develop a strategy that seeks to achieve the Client's goals and objectives.
- Model Portfolio – Cutter Financial will place Client assets in a model portfolio or a variation of model portfolio that is targeted to meet the investment objectives, time horizon, financial situation and tolerance for risk for each Client.
- Investment Management and Supervision – Cutter Financial will provide investment management and ongoing oversight of the Client's investment portfolio.

D. Wrap Fee Programs

Cutter Financial typically includes securities transaction fees together with its investment advisory fees. Including these fees into a single asset-based fee is considered a "Wrap Fee Program". The Advisor sponsors the Cutter Financial Wrap Fee Program solely as a supplemental disclosure regarding the combination of fees. Depending on the level of trading required for the Client's account[s] in a particular year, the Client may pay more or less in total fees than if the Client paid its own transaction fees. Please see Appendix 1 – Wrap Fee Program Brochure, which is included as a supplement to this Disclosure Brochure.

E. Assets Under Management

As of January 18, 2018, Cutter Financial manages the following assets:

Discretionary Assets	\$118,411,885
Non-Discretionary Assets	2,734,764
Total Assets Under Management	\$121,146,649

Clients may request more current information at any time by contacting the Advisor.

Item 5 – Fees and Compensation

The following paragraphs detail the fee structure and compensation methodology for services provided by the Advisor. Each Client engaging the Advisor for services described herein shall be required to enter into one or more agreements agreement with the Advisor.

A. Fees for Advisory Services

Investment Management Services

Investment advisory fees are paid monthly in arrears, pursuant to the terms of the agreement. Investment advisory fees are based on the average daily market value of assets under management during the month. Investment advisory fees range from 1.60% to 2.00% annually for Clients participating in the Cutter Financial Wrap Fee Program and 1.45% to 1.85% annually for Clients that do not participate in the Cutter Financial Wrap Fee Program. The fee is set by the Advisor based on several factors, including: the complexity of the services to be provided, the level of assets to be managed, and the overall relationship with the Advisor. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

The investment advisory fee in the first month of service is prorated from the inception date of the account[s] to the end of the first month. Fees may be negotiable at the sole discretion of the Advisor. The Client's fees will take into consideration the aggregate assets under management with the Advisor. All securities held in accounts managed by Cutter Financial will be independently valued by the Custodian. Cutter Financial will not have the authority or responsibility to value portfolio securities.

In addition to the monthly investment advisory fee, Cutter Financial charges an annual technology fee at the beginning of each year. The fee is generally charged per account based on the following schedule:

Account Assets (\$)	Annual Fee (\$)
Up to \$49,999	\$35
\$50,000 to \$99,999	\$60
\$100,000 and over	\$100

Financial Planning and Consulting Services

Cutter Financial offers financial planning services either on an hourly basis or a fixed engagement fee. Hourly engagements range up to \$500 per hour. Fixed engagements range up to \$15,000. Fees may be negotiable based on the type of client, nature and complexity of the services to be provided and the overall relationship with the Advisor. An estimate for total hours and/or total costs will be provided to the Client prior to engaging for these services.

B. Fee Billing

Investment Management Services

Investment advisory fees are calculated by the Advisor or its delegate and deducted from the Client's account[s] at the Custodian. The Advisor or its delegate shall send an invoice to the Custodian indicating the amount of the fees to be deducted from the Client's account[s] at the end of the month. The amount due is calculated by applying the monthly rate (annual rate divided by 12) to the average daily balance of assets under management with Cutter Financial during the month. Clients will be provided with a statement, at least quarterly, from the Custodian

reflecting deduction of the investment advisory fee. It is the responsibility of the Client to verify the accuracy of these fees as listed on the Custodian's brokerage statement as the Custodian does not assume this responsibility. Clients provide written authorization permitting advisory fees to be deducted by Cutter Financial directly from their account[s] held by the Custodian as part of the investment advisory agreement and separate account forms provided by the Custodian.

Financial Planning Services

Financial planning fees may be invoiced up to fifty percent (50%) of the expected total fee upon execution of the financial planning agreement. The balance shall be invoiced upon completion of the agreed upon deliverable[s].

C. Other Fees and Expenses

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. Cutter Financial includes securities transactions costs as part of its overall investment advisory fee for Clients that participate in the Cutter Financial Wrap Fee Program. Clients that do not participate in the Cutter Financial Wrap Fee Program are billed directly for securities transactions fees. Also, securities transaction fees for Client-directed trades may be charged back to the Client. Please see Item 4.D. above as well as Appendix 1 – Wrap Fee Program Brochure.

In addition, all fees paid to Cutter Financial for investment advisory services or part of the Cutter Financial Wrap Fee Program are separate and distinct from the expenses charged by mutual funds and ETFs to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. A Client may be able to invest in certain products directly, without the services of Cutter Financial, but would not receive the services provided by Cutter Financial which are designed, among other things, to assist the Client in determining which products or services are most appropriate for each Client's financial situation and objectives. Accordingly, the Client should review both the fees charged by the fund[s] and the fees charged by Cutter Financial to fully understand the total fees to be paid. Please refer to Item 12 – Brokerage Practices for additional information.

D. Advance Payment of Fees and Termination

Investment Management Services

Cutter Financial is compensated for its services at the end of the month after investment advisory services are rendered. Either party may terminate the investment advisory agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the investment advisory agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. The Client's investment advisory agreement with the Advisor is non-transferable without the Client's prior consent.

Financial Planning Services

Cutter Financial requires an advance deposit as described above. Either party may terminate the financial planning agreement, at any time, by providing advance written notice to the other party. The Client may also terminate the financial planning agreement within five (5) business days of signing the Advisor's agreement at no cost to the Client. After the five-day period, the Client will incur charges for bona fide advisory services rendered to the point of termination and such fees will be due and payable by the Client. Upon termination, the Client shall be billed for actual hours logged on the planning project times the contractual hourly rate or in the case of a fixed fee engagement, the percentage of the engagement scope completed by the Advisor. The Client's financial planning agreement with the Advisor is non-transferable without the Client's prior consent.

E. Compensation for Sales of Securities

Cutter Financial does not buy or sell securities and does not receive any compensation for securities transactions in any Client account, other than the investment advisory fees noted above.

Item 6 – Performance-Based Fees and Side-By-Side Management

Cutter Financial does not charge performance-based fees for its investment advisory services. The fees charged by Cutter Financial are as described in “Item 5 – Fees and Compensation” above and are not based upon the capital appreciation of the funds or securities held by any Client.

Cutter Financial does not manage any proprietary investment funds or limited partnerships (for example, a mutual fund or a hedge fund) and has no financial incentive to recommend any particular investment options to its Clients.

Item 7 – Types of Clients

Cutter Financial offers investment advisory services to individuals, high net worth individuals and charitable organizations. The amount of each type of Client is available on Cutter Financial's Form ADV Part 1A. These amounts may change over time and are updated at least annually by the Advisor. Cutter Financial generally does not impose a minimum size for establishing a relationship.

Item 8 – Methods of Analysis, Investment Strategies and Risk of Loss

A. Methods of Analysis

Cutter Financial primarily employs fundamental and technical analysis methods in developing investment strategies for its Clients. Research and analysis from Cutter Financial are derived from numerous sources, including unaffiliated third party registered investment advisors, financial media companies, third-party research materials, Internet sources, and review of company activities, including annual reports, prospectuses, press releases and research or market signals prepared by others.

Fundamental analysis utilizes economic and business indicators as investment selection criteria. These criteria are generally ratios and trends that may indicate the overall strength and financial viability of the entity being analyzed. Assets are deemed suitable if they meet certain criteria to indicate that they are a strong investment with a value discounted by the market. While this type of analysis helps the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in the fundamental analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to models are appropriate. More details on the Advisor's review process are included below in “Item 13 – Review of Accounts”.

Technical analysis involves the analysis of past market data rather than specific company data in determining the recommendations made to clients. Technical analysis may involve the use of charts to identify market patterns and trends, which may be based on investor sentiment rather than the fundamentals of the company. The primary risk in using technical analysis is that spotting historical trends may not help to predict such trends in the future. Even if the trend will eventually reoccur, there is no guarantee that Cutter Financial will be able to accurately predict such a reoccurrence.

The Advisor may effectuate the securities transactions in the Client's accounts based on research and analysis provided by one or more unaffiliated investment managers, including information on specific securities to purchase or sell and the timing of transactions. At times, Cutter Financial may buy and sell positions that are more short-term in nature, or liquidate positions depending on the goals of the Client and/or Cutter Financial's belief of what is in the best interest of the Client.

B. Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Cutter Financial will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

While the methods of analysis help the Advisor in evaluating a potential investment, it does not guarantee that the investment will increase in value. Assets meeting the investment criteria utilized in these methods of analysis may lose value and may have negative investment performance. The Advisor monitors these economic indicators to determine if adjustments to strategic allocations are appropriate. More details on the Advisor's review process are included below in Item 13 – Review of Accounts.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process.

Following are some of the risks associated with the Advisor's strategies:

Market Risks

The performance of mutual funds and ETFs are subject to market risk, including the possible loss of principal. The value of the mutual funds or ETFs will fluctuate with the value of the underlying securities that make up the fund.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Leveraged ETFs

Leveraged ETFs seek to deliver multiples of the performance of the index or benchmark they track. These ETFs typically deliver some multiple of an index's daily returns whether the return is positive or negative. The multiplier effects both the upside and the downside of returns. While it may seem that a 2x multiplier is a benefit in an up-market cycle it is important to remember that the same multiplier applies when the ETF moves against the market. This could potentially result in significant losses, and highlights the additional risk associated with Leveraged ETFs.

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Short Sales

A short sale involves the sale of a security that the Client does not own in the hope of purchasing the same security at a later date at a lower price. To make delivery to the buyer, the Client must borrow the security and is obligated to return the security to the lender, which is accomplished by a later purchase of the security. The Client realizes a profit or a loss as a result of a short sale if the price of the security decreases or increases respectively between the date of the short sale and the date on which the Client covers its short position, i.e., purchases the security to replace the borrowed security. A short sale involves the theoretically unlimited risk of an increase in the market price of the security that would result in a theoretically unlimited loss.

Frequent Trading

Frequent trading in securities can result in higher transaction costs in the Client's account[s]. For taxable accounts, frequent trading can also result in taxable transactions each year that would not be present in a buy-and-hold strategy. There are no guarantees that a frequent trading strategy will correctly time purchases and sales of any particular security.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Item 9 – Disciplinary Information

There are no legal, regulatory or disciplinary events involving Cutter or its Supervised Persons. Cutter Financial and its Advisory Persons value the trust you place in us. As we advise all Clients, we encourage you to perform the requisite due diligence on any advisor or service provider with whom you partner. Our backgrounds are available on the Investment Adviser Public Disclosure website at www.adviserinfo.sec.gov by searching with our firm name or our CRD# 290016.

Item 10 – Other Financial Industry Activities and Affiliations

Insurance Agency Affiliations

As noted in Item 5, certain Advisory Persons are also licensed as insurance professionals, conducting the majority of their business through Allianz Life Insurance Company of North America. Implementations of insurance recommendations are separate and apart from one's role with Cutter Financial. As an insurance professional, an Advisory Person may receive customary commissions and other related revenues from the insurance company whose products are sold. Cutter Financial also receives revenue directly from Allianz Life Insurance Company of North America. Commissions generated by insurance sales do not offset regular advisory fees. This may cause a conflict of interest in recommending certain products of the insurance companies. Clients are under no obligation to implement any recommendations made by an Advisory Person or the Advisor.

Item 11 – Code of Ethics, Participation or Interest in Client Transactions and Personal Trading

A. Code of Ethics

Cutter Financial has implemented a Code of Ethics (the "Code") that defines our fiduciary commitment to each Client. This Code applies to all persons associated with Cutter Financial (our "Supervised Persons"). The Code was developed to provide general ethical guidelines and specific instructions regarding our duties to you, our Client. Cutter Financial and its Supervised Persons owe a duty of loyalty, fairness and good faith towards each Client. It is the obligation of Cutter Financial's Supervised Persons to adhere not only to the specific provisions of the Code, but also to the general principles that guide the Code. The Code covers a range of topics that address employee ethics and conflicts of interest. To request a copy of our Code, please contact us at (508) 388-7175.

B. Personal Trading with Material Interest

Cutter Financial allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Cutter Financial does not act as principal in any transactions. In addition, the Advisor does not act as the general partner of a fund, or advise an investment company. Cutter Financial does not have a material interest in any securities traded in Client accounts.

C. Personal Trading in Same Securities as Clients

Cutter Financial allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients. Owning the same securities that we recommend (purchase or sell) to you presents a conflict of interest that, as fiduciaries, we must disclose to you and mitigate through policies and procedures. As noted above, we have adopted the Code to address insider trading (material non-public information controls); gifts and entertainment; outside business activities and personal securities reporting. When trading for personal accounts, Supervised Persons may have a conflict of interest if trading in the same

securities. The fiduciary duty to act in the best interest of its Clients can potentially be violated if personal trades are made with more advantageous terms than Client trades, or by trading based on material non-public information. This risk is mitigated by requiring reporting of personal securities trades by its Supervised Persons for review by the Chief Compliance Officer ("CCO") or delegate. We have also adopted written policies and procedures to detect the misuse of material, non-public information.

D. Personal Trading at Same Time as Client

While Cutter Financial allows our Supervised Persons to purchase or sell the same securities that may be recommended to and purchased on behalf of Clients, such trades are typically aggregated with Client orders or traded afterwards. **At no time will Cutter Financial, or any Supervised Person of Cutter Financial, transact in any security to the detriment of any Client.**

Item 12 – Brokerage Practices

A. Recommendation of Custodian[s]

Cutter Financial does not have discretionary authority to select the broker-dealer/custodian for custody and execution services. The Client will engage the broker-dealer/custodian (herein collectively the "Custodian") to safeguard Client assets and authorize Cutter Financial to direct trades to the Custodian as agreed upon in the investment advisory agreement. Further, Cutter Financial does not have the discretionary authority to negotiate commissions on behalf of our Clients on a trade-by-trade basis.

Where Cutter Financial does not exercise discretion over the selection of the Custodian, it may recommend the Custodian[s] to Clients for custody and execution services. Clients are not obligated to use the Custodian recommended by the Advisor and will not incur any extra fee or cost associated with using a Custodian not recommended by Cutter Financial. However, the Advisor may be limited in the services it can provide if the recommended Custodian is not engaged. Cutter Financial may recommend the Custodian based on criteria such as, but not limited to, reasonableness of commissions charged to the Client, services made available to the Client, its reputation and/or the location of the Custodian's offices.

Cutter Financial will generally recommend that Clients establish their account[s] at TD Ameritrade, Inc. ("TD Ameritrade"), an independent and unaffiliated SEC-registered broker-dealer. The Advisor participates in the TD Ameritrade Institutional program. TD Ameritrade Institutional is a division of TD Ameritrade, member FINRA/SIPC. TD Ameritrade offers to independent investment Advisors services, which include custody of securities, trade execution, clearance and settlement of transactions. Advisor receives some benefits from TD Ameritrade through its participation in the program. Please see Item 14 below.

In certain circumstances, Cutter Financial may recommend that Clients establish their account[s] at Fidelity Clearing & Custody Solutions and related entities of Fidelity Investments, Inc. (collectively "Fidelity"), where the Advisor maintains an institutional relationship. In such circumstances, Fidelity will serve as the Client's "qualified custodian".

Following are additional details regarding the brokerage practices of the Advisor:

1. Soft Dollars - Soft dollars are revenue programs offered by broker-dealers/custodians whereby an advisor enters into an agreement to place security trades with a broker-dealer/custodian in exchange for research and other services. **Cutter Financial does not participate in soft dollar programs sponsored or offered by any broker-dealer/custodian. However, the Advisor receives certain economic benefits from the Custodian. Please see Item 14 below.**

2. Brokerage Referrals - Cutter Financial does not receive any compensation from any third party in connection with the recommendation for establishing an account.

3. Directed Brokerage - All Clients are serviced on a "directed brokerage basis", where Cutter Financial will place trades within the established account[s] at the Custodian designated by the Client. Further, all Client accounts are traded within their respective account[s]. The Advisor will not engage in any principal transactions

(i.e., trade of any security from or to the Advisor's own account) or cross transactions with other Client accounts (i.e., purchase of a security into one Client account from another Client's account[s]). Cutter Financial will not be obligated to select competitive bids on securities transactions and does not have an obligation to seek the lowest available transaction costs. These costs are determined by the Custodian.

B. Aggregating and Allocating Trades

The primary objective in placing orders for the purchase and sale of securities for Client accounts is to obtain the most favorable net results taking into account such factors as 1) price, 2) size of order, 3) difficulty of execution, 4) confidentiality and 5) skill required of the Custodian. Cutter Financial will execute its transactions through the Custodian as authorized by the Client. Cutter Financial may aggregate orders in a block trade or trades when securities are purchased or sold through the Custodian for multiple (discretionary) accounts in the same trading day. If a block trade cannot be executed in full at the same price or time, the securities actually purchased or sold by the close of each business day must be allocated in a manner that is consistent with the initial pre-allocation or other written statement. This must be done in a way that does not consistently advantage or disadvantage any particular Client accounts.

Item 13 – Review of Accounts

A. Frequency of Reviews

Securities in Client accounts are monitored on a regular and continuous basis by Jeffrey Cutter, Chief Compliance Officer of Cutter Financial. Formal reviews are generally conducted at least annually or more frequently depending on the needs of the Client.

B. Causes for Reviews

In addition to the investment monitoring noted in Item 13.A., each Client account shall be reviewed at least annually. Reviews may be conducted more frequently at the Client's request. Accounts may be reviewed as a result of major changes in economic conditions, known changes in the Client's financial situation, and/or large deposits or withdrawals in the Client's account[s]. The Client is encouraged to notify Cutter Financial if changes occur in the Client's personal financial situation that might adversely affect the Client's investment plan. Additional reviews may be triggered by material market, economic or political events.

C. Review Reports

The Client will receive brokerage statements no less than quarterly from the Custodian. These brokerage statements are sent directly from the Custodian to the Client. The Client may also establish electronic access to the Custodian's website so that the Client may view these reports and their account activity. Client brokerage statements will include all positions, transactions and fees relating to the Client's account[s]. The Advisor may also provide Clients with periodic reports regarding their holdings, allocations, and performance.

Item 14 – Client Referrals and Other Compensation

A. Compensation Received by Cutter Financial

Participation in Institutional Advisor Platform

As disclosed under Item 12, above, the Advisor participates in TD Ameritrade's institutional customer program and the Advisor may recommend TD Ameritrade to Clients for custody and brokerage services. There is no direct link between the Advisor's participation in the program and the investment advice it gives to its Clients, although the Advisor receives economic benefits through its participation in the program that are typically not available to TD Ameritrade retail investors. These benefits include the following products and services (provided without cost or at a discount): receipt of duplicate Client statements and confirmations; research related products and tools; consulting services; access to a trading desk serving the Advisor participants; access to block trading (which provides the ability to aggregate securities transactions for execution and then allocate the appropriate shares to Client accounts); the ability to have advisory fees deducted directly from Client accounts; access to an electronic communications network for Client order entry and account information; access to mutual funds with no transaction fees and to certain institutional money managers; and discounts on compliance, marketing, research, technology, and practice management products or services provided to the Advisor by third party vendors. TD

Ameritrade may have also paid for business consulting and professional services received by the Advisor's related persons. Some of the products and services made available by TD Ameritrade through the program may benefit the Advisor but may not benefit its Client accounts. These products or services may assist the Advisor in managing and administering Client accounts, including accounts not maintained at TD Ameritrade. Other services made available by TD Ameritrade are intended to help the Advisor manage and further develop its business enterprise. The benefits received by the Advisor or its personnel through participation in the program do not depend on the amount of brokerage transactions directed to TD Ameritrade. As part of its fiduciary duties to clients, the Advisor endeavors at all times to put the interests of its clients first. Clients should be aware, however, that the receipt of economic benefits by the Advisor or its related persons in and of itself creates a potential conflict of interest and may indirectly influence the Advisor's choice of TD Ameritrade for custody and brokerage services.

B. Client Referrals from Solicitors

Cutter Financial does not engage paid solicitors for Client referrals.

Item 15 – Custody

Cutter Financial does not accept or maintain custody of any Client accounts, except for the authorized deduction of the Advisor's fees. All Clients must place their assets with a "qualified custodian". Clients are required to engage the Custodian to retain their funds and securities and direct Cutter Financial to utilize that Custodian for the Client's security transactions. Clients should review statements provided by the Custodian and compare to any reports provided by Cutter Financial to ensure accuracy, as the Custodian does not perform this review. For more information about custodians and brokerage practices, see Item 12 - Brokerage Practices.

Item 16 – Investment Discretion

Cutter Financial generally has discretion over the selection and amount of securities to be bought or sold in Client accounts without obtaining prior consent or approval from the Client. However, these purchases or sales may be subject to specified investment objectives, guidelines, or limitations previously set forth by the Client and agreed to by Cutter Financial. Discretionary authority will only be authorized upon full disclosure to the Client. The granting of such authority will be evidenced by the Client's execution of an investment advisory agreement containing all applicable limitations to such authority. All discretionary trades made by Cutter Financial will be in accordance with each Client's investment objectives and goals.

Item 17 – Voting Client Securities

Cutter Financial does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 18 – Financial Information

Neither Cutter Financial, nor its management, have any adverse financial situations that would reasonably impair the ability of Cutter Financial to meet all obligations to its Clients. Neither Cutter Financial, nor any of its Advisory Persons, have been subject to a bankruptcy or financial compromise. Cutter Financial is not required to deliver a balance sheet along with this Disclosure Brochure as the Advisor does not collect advance fees of \$1,200 or more for services to be performed six months or more in the future.

Item 4 – Services Fees and Compensation

A. Services

Cutter Financial provides investment advisory solutions for its Clients through portfolio strategies. This Wrap Fee Program Brochure is provided as a supplement to the Cutter Financial Disclosure Brochure (Form ADV 2A). This Wrap Fee Program Brochure is provided along with the complete Disclosure Brochure to provide full details of the business practices and fees when selecting Cutter Financial as your investment advisor.

As part of the investment advisory fees noted in Item 5 of the Disclosure Brochure, Cutter Financial includes normal securities transaction fees as part of the overall investment advisory fee. Securities regulations often refer to this combined fee structure as a “Wrap Fee Program”. The Advisor sponsors the Cutter Financial Wrap Fee Program.

The sole purpose of this Wrap Fee Program Brochure is to provide additional disclosure relating the combination of securities transaction fees into the single “bundled” investment advisory fee. This Wrap Fee Program Brochure references back to the Cutter Financial Disclosure Brochure in which this Wrap Fee Program Brochure serves as an Appendix. **Please see Item 4 – Advisory Services of the Disclosure Brochure for details on Cutter Financial’s investment philosophy and related services.**

B. Program Costs

Advisory services provided by Cutter Financial are offered in a wrap fee structure whereby normal securities transaction costs are included in the overall investment advisory fee paid to Cutter Financial. As the level of trading in a Client’s account[s] may vary from year to year, the annual cost to the Client may be more or less than engaging for advisory services where the transactions costs are borne separately by the Client. The cost of the Wrap Fee Program varies depending on services to be provided to each Client, however, the Client is not charged more if there is higher trading activity in the Client’s account[s]. A Wrap Fee structure has a potential conflict of interest as the Advisor may have an incentive to limit the number of trades placed in the Client’s account[s]. **Please see Item 5 – Fees and Compensation of the Disclosure Brochure for complete details on fees.**

C. Fees

Investment advisory fees are paid month, in arrears, pursuant to the terms of the agreement. Investment advisory fees are based on the average daily market value of assets under management during the calendar month. Investment advisory fees range from 1.60% to 2.00% annually based on several factors, including: the complexity of the services to be provided, the level of assets to be managed, and the overall relationship with the Advisor. Relationships with multiple objectives, specific reporting requirements, portfolio restrictions and other complexities may be charged a higher fee.

The investment advisory fee in the first month of service is prorated from the inception date of the account[s] to the end of the first month. Fees may be negotiable at the sole discretion of the Advisor. The Client’s fees will take into consideration the aggregate assets under management with the Advisor. All securities held in accounts managed by Cutter Financial will be independently valued by the Custodian. Cutter Financial will not have the authority or responsibility to value portfolio securities.

In addition to the monthly investment advisory fee, Cutter Financial charges an annual technology fee at the beginning of each year. The fee is generally charged per account based on the following schedule:

Account Assets (\$)	Annual Fee (\$)
Up to \$49,999	\$35
\$50,000 to \$99,999	\$60
\$100,000 and over	\$100

As noted above, the Wrap Fee Program includes normal securities trading costs incurred in connection with the discretionary investment management services provided by Cutter Financial. Securities transaction fees for Client-directed trades may be charged back to the Client.

Clients may incur certain fees or charges imposed by third parties in connection with investments made on behalf of the Client's account[s]. Under this Wrap Fee Program, Cutter Financial includes securities transactions costs as part of its overall investment advisory fee.

In addition, all fees paid to Cutter Financial for investment advisory services or part of the Wrap Fee Program are separate and distinct from the expenses charged by mutual funds and exchange-traded funds to their shareholders, if applicable. These fees and expenses are described in each fund's prospectus. These fees and expenses will generally be used to pay management fees for the funds, other fund expenses, account administration (e.g., custody, brokerage and account reporting), and a possible distribution fee. The Client may also incur other costs assessed by the Custodian or other parties for account related activity fees, such as wire transfer fees, fees for trades executed away from the Custodian and other fees. The Advisor does not control nor share in these fees. The Client should review both the fees charged by the fund[s] and the fees charged by Cutter Financial to fully understand the total fees to be paid. Please see Item 5.C. – Other Fees and Expenses in the Disclosure Brochure (included with this Wrap Fee Program Brochure).

D. Compensation

Cutter Financial is the sponsor and portfolio manager of this Wrap Fee Program. Cutter Financial receives investment advisory fees paid by Clients for participating in the Wrap Fee Program and pays the Custodian for the costs associated with the normal trading activity in the Client's account[s].

Item 5 – Account Requirements and Types of Clients

Cutter Financial offers investment advisory services to individuals, high net worth individuals and charitable organizations. Cutter Financial generally does not impose a minimum account size for establishing a relationship. Please see Item 7 – Types of Clients in the Disclosure Brochure for additional information.

Item 6 – Portfolio Manager Selection and Evaluation

Portfolio Manager Selection

Cutter Financial serves as sponsor and as portfolio manager for the services under this Wrap Fee Program.

Related Persons

Cutter Financial personnel serve as portfolio managers for this Wrap Fee Program. Cutter Financial does not serve as a portfolio manager for any third-party wrap fee programs.

Performance-Based Fees

Cutter Financial does not charge performance-based fees.

Supervised Persons

Cutter Financial Advisory Persons serve as portfolio managers for all accounts, including the services described in this Wrap Fee Program Brochure. Details of the advisory services provided are included in Item 4.A. of the Disclosure Brochure.

Methods of Analysis

Please see Item 8 of the Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on the research and analysis methods employed by the Advisor.

Risk of Loss

Investing in securities involves certain investment risks. Securities may fluctuate in value or lose value. Clients should be prepared to bear the potential risk of loss. Cutter Financial will assist Clients in determining an appropriate strategy based on their tolerance for risk and other factors noted above. However, there is no guarantee that a Client will meet their investment goals.

Each Client engagement will entail a review of the Client's investment goals, financial situation, time horizon, tolerance for risk and other factors to develop an appropriate strategy for managing a Client's account. Client participation in this process, including full and accurate disclosure of requested information, is essential for the analysis of a Client's account[s]. The Advisor shall rely on financial and other information provided by the Client or their designees without the duty or obligation to validate the accuracy and completeness of the provided information. It is the responsibility of the Client to inform the Advisor of any changes in financial condition, goals or other factors that may affect this analysis.

The risks associated with a particular strategy are provided to each Client in advance of investing Client accounts. The Advisor will work with each Client to determine their tolerance for risk as part of the portfolio construction process. Following are some of the risks associated with the Advisor's strategies:

Market Risks

The performance of mutual funds and ETFs are subject to market risk, including the possible loss of principal. The value of the mutual funds or ETFs will fluctuate with the value of the underlying securities that make up the fund.

ETF Risks

The performance of ETFs is subject to market risk, including the possible loss of principal. The price of the ETFs will fluctuate with the price of the underlying securities that make up the funds. In addition, ETFs have a trading risk based on the loss of cost efficiency if the ETFs are traded actively and a liquidity risk if the ETFs has a large bid-ask spread and low trading volume. The price of an ETF fluctuates based upon the market movements and may dissociate from the index being tracked by the ETF or the price of the underlying investments. An ETF purchased or sold at one point in the day may have a different price than the same ETF purchased or sold a short time later.

Leveraged ETFs

Leveraged ETFs seek to deliver multiples of the performance of the index or benchmark they track. These ETFs typically deliver some multiple of an index's daily returns whether the return is positive or negative. The multiplier effects both the upside and the downside of returns. While it may seem that a 2x multiplier is a benefit in an up-market cycle it is important to remember that the same multiplier applies when the ETF moves against the market. This could potentially result in significant losses, and highlights the additional risk associated with Leveraged ETFs.

Options Contracts

Investments in options contracts have the risk of losing value in a relatively short period of time. Option contracts are leveraged instruments that allow the holder of a single contract to control many shares of an underlying stock. This leverage can compound gains or losses.

Short Sales

A short sale involves the sale of a security that the Client does not own in the hope of purchasing the same security at a later date at a lower price. To make delivery to the buyer, the Client must borrow the security and is obligated to return the security to the lender, which is accomplished by a later purchase of the security. The Client realizes a profit or a loss as a result of a short sale if the price of the security decreases or increases respectively between the date of the short sale and the date on which the Client covers its short position, i.e., purchases the security to replace the borrowed security. A short sale involves the theoretically unlimited risk of an increase in the market price of the security that would result in a theoretically unlimited loss.

Frequent Trading

Frequent trading in securities can result in higher transaction costs in the Client's account[s]. For taxable accounts, frequent trading can also result in taxable transactions each year that would not be present in a buy-and-hold strategy. There are no guarantees that a frequent trading strategy will correctly time purchases and sales of any particular security.

Past performance is not a guarantee of future returns. Investing in securities and other investments involve a risk of loss that each Client should understand and be willing to bear. Clients are reminded to discuss these risks with the Advisor.

Proxy Voting

Cutter Financial does not accept proxy-voting responsibility for any Client. Clients will receive proxy statements directly from the Custodian. The Advisor will assist in answering questions relating to proxies, however, the Client retains the sole responsibility for proxy decisions and voting.

Item 7 – Client Information Provided to Portfolio Managers

Cutter Financial is the sponsor and sole portfolio manager for the Program. The Advisor does not share Client information with other portfolio managers because it is the sole portfolio manager for this Wrap Fee Program. Please also see the Cutter Financial Privacy Policy (included after this Wrap Fee Program Brochure).

Other Compensation

Participation in Institutional Advisor Platform

Cutter Financial has established an institutional relationship with TD Ameritrade, Inc. ("TD Ameritrade") to assist the Advisor in managing Client account[s]. Access to the TD Ameritrade platform is provided at no charge to the Advisor. The Advisor receives access to software and related support without cost because the Advisor renders investment management services to Clients that maintain assets at TD Ameritrade. The software and related systems support may benefit the Advisor, but not its Clients directly. In fulfilling its duties to its Clients, the Advisor endeavors at all times to put the interests of its Clients first. Clients should be aware, however, that the receipt of

economic benefits from a custodian creates a potential conflict of interest since these benefits may influence the Advisor's recommendation of this Custodian over one that does not furnish similar software, systems support, or services.

Please see Item 14 – Other Compensation in the Form ADV Part 2A – Disclosure Brochure (included with this Wrap Fee Program Brochure) for details on additional compensation that may be received by Cutter Financial or its Advisory Persons. Each Advisory Person's Brochure Supplement (also included with this Wrap Fee Program Brochure) provides details on any outside business activities and the associated compensation.

Client Referrals from Solicitors

Cutter Financial does not engage paid solicitors for Client referrals.

While state laws and regulations vary, the education, experience and testing requirements for licensure as a CPA generally include minimum college education (typically 150 credit hours with at least a baccalaureate degree and a concentration in accounting), minimum experience levels (most states require at least one year of experience providing services that involve the use of accounting, attest, compilation, management advisory, financial advisory, tax or consulting skills, all of which must be achieved under the supervision of or verification by a CPA), and successful passage of the Uniform CPA Examination. In order to maintain a CPA license, states generally require the completion of 40 hours of continuing professional education (CPE) each year (or 80 hours over a two-year period or 120 hours over a three-year period). Personal Financial Specialist ("PFS")

The PFS credential demonstrates that an individual has met the minimum education, experience and testing required of a CPA in addition to a minimum level of expertise in personal financial planning.
